setting than a dark full theatre. We use minimal costumes and perform in the attic (upstairs in the dance room) with the kids on the floor in front of the stage (dance floor). The shows are written to interactively include the kids with their own lines and songs. Fortunately our audiences are not very discriminating. The whole experience is a terrific and enjoyable time.

Your greatest contribution to the betterment of mankind: My adorable children, no wait you said betterment. Good question, maybe just volunteering with elementary and high school students and helping them have fun in school and other activities.

**What has your time and education at Asheville School meant to you:**

It was a great base to get me through Sewanee and taught me the beginnings of computer programming which became my lively-hood. Though I haven't kept up close contact with most of our class the memories of everyone and AS always bring a smile to me and remind me of the fun (crazy and somewhat illegal) stuff we used to do. The camping and climbing trips with Pop are especially memorable and my summer trip with him to the Teton and the Wind River Range will always be one of my most memorable and enjoyable times. The other falls to Chase and our trip to Zermatt after graduation. That was a terrific 4 weeks!

**What are your most vivid memories of Asheville School:**

Climbing, canoeing, mountaineering, soccer, JV football (quite a learning experience), the teachers (especially Legg, Ambler, Doc, Mrs. Jarrett and of course Mr. Butler), shooting pistols with Bucko (that now seems very frightening), the water tower, dorm life, waiting tables and most of all my fellow classmates which made the whole thing an incredible life-time experience. (Other "unmentionables" – the tracks, late night graveyard tours, moving the dining hall outside, Bucko hanging people out the window, and the interesting nicknames we ended up with.)

**What else would you like to share (here is your chance to boast and outshine your classmates.**

It would be extremely difficult to outshine my fellow class of '74 comrades as (just from the emails) we have several 'certified' geniuses, some extremely successful entrepreneurs and business owners, some actresses and producer/directors and other amazing members. So I'll just add I'm thrilled to be part of the Class of '74 and I'm looking forward to this and future reunions!

I would like to add: Congratulations Tarheels on the national championship. GO Heels!!!!

**Alias:** Kert

**Anything you would like to share about your family:**

Kevin – my son, came in 237th in the Boston marathon with only 6 weeks of practice. He went to Woodberry Forest and graduated as best athlete, and won 4 academic awards. He holds the Virginia prep record for 10k cross country, and several distance track records also

**Your profession/vocation/occupation:**

Partner and semi-retired Real-Estate developer and property manager. I have begun a second career as a numismatist – "a rare coin and currency dealer"

**College, reform school; major(s); degree(s):**

UNC Chapel Hill, I am a licensed Real Estate Broker, Unlimited building contractor, and public utility (water and sewer) contractor. Life member of ANA, SPMC, PNG and other anagrams associated with coin dealing

**Military service:**

I was a guerilla farmer of "medicinal herbs" during the late 1970's and early 1980's

**Your avocations:**

I am a staunch independent in my political beliefs. I also spend time every week helping recovering addicts by leading groups, and helping them to work on reducing the pain and chaos in their lives.

**Your hobbies, interests:**

History, coins and historic banknotes, and photography. Helping others to find the peace that I have through sobriety.

**Your greatest contribution to the betterment of mankind:**

My children, and their great maturity, ambition and self control, (which I did not master until more than a decade after school )

**What has your time and education at Asheville School meant to you:**

It gave me many tools, which I am still learning to use in the day to day existence of my life.

**What are your most vivid memories of Asheville School:**

The late night visits to the tracks. We had some great times there, and it made the mundane daily existence bearable.

**What else would you like to share?**

After many years of being irresponsible, I have found a great peace in where I am today. I am very blessed to have the children that I do, and I remind myself, and them of that every chance that I get. I had a bad marriage, and my ex-wife died 3 years ago deep in her chosen life of drugs and alcohol. I escaped this lifestyle years ago, and neither of my children even drink socially. Addiction is rampant in my family, and I am grateful that I have shed those chains of bondage.
